(54) Title: LAMP PROTECTION SYSTEM AND METHOD

(57) Abstract: A video display system such as a liquid crystal display television receiver projection system (103) typically uses a high-intensity discharge lamp (105) of the type that should not be re-started or turned on immediately after being turned off. An improved system protecting the lamp (105) from restarts during a cooling off period. The system (103) maintains the lamp, once energized to produce an image (on screen 108), in an off condition during a predetermined powers the lamp on the end of the cool-down period upon receipt a power-on command (from remote 101) during the cool-down period.

# INTERNATIONAL SEARCH REPORT

International application No.

PCT/US04/03320

## A. CLASSIFICATION OF SUBJECT MATTER

IPC(7) : H04N 5/74; G03B 21/00

US CL : 348/745, 748; 315/112, 118, 225

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

U.S. : 348/745, 348/748; 315/112, 116, 117, 118, 225

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched  
NONE

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)  
EAST (search terms: cool, cold, period, cycle, display, LED, light diode, indicator.)

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 5,136,397 A (MIYASHITA) 4 August 1992 (04.08.1992), see entire document.	1-9

☐ Further documents are listed in the continuation of Box C.

☐ See patent family annex.

\* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T"

later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X"

document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y"

document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&"

document member of the same patent family

Date of the actual completion of the international search

27 September 2004 (27.09.2004)

Date of mailing of the international search report

18 JAN 2005

Name and mailing address of the ISA/US
